

BY AUTHORITY.

NOTICE IS HEREBY GIVEN THAT claims against the Government for the month of June, i. e. claims filed with the respective Departments previous to July 30, 1895, will be payable on WEDNESDAY, Nov. 6th, 1895.

R. M. DAMON,
Minister of Finance.
Honolulu, November 4th, 1895.
114-21.

Tenders For School Houses.

Tenders will be received at the office of the Board of Education until MONDAY, November 24, at 12 o'clock noon, for the construction of two school houses, 40x20x10 ft. at Wai-ahia, district of Honolulu, Island of Kauai, and at Olua, district of Puna, Hawaii.

Plans and specifications of the work can be seen at the office of the Board of Education.

The Board does not bind itself to accept the lowest or any tender.

By order of the Board of Education:
JOHN F. SCOTT,
Secretary.

The Evening Bulletin.

With which is incorporated the "Independent."

TUESDAY, - - NOV. 5, 1895

SANITATION ABROAD.

Consular Reports of July last, issued at Washington, contains much interesting information about sanitary conditions and regulations in foreign cities. There is matter therein which ought to be highly useful to our authorities in the new departure in sanitation forced upon them by the late epidemic. There are plates exhibiting views of tenement blocks for working people in London and Liverpool, and a short but interesting report is given of tenement sanitation in Paris. In Liverpool a huge aggregation of dwellings has been erected for artisans from designs prepared by the city engineer. These and a block in Petticoat square, London, are palatial in exterior, looking like great hotels. We are told that the great work of providing improved dwellings for the working classes and the poor in and about London has been prosecuted by philanthropic bodies, public companies and individuals, acting without any special legislative powers, except in the cases of companies in their corporate capacities.

Some of the regulations for the Petticoat square tenements may here be condensed to show how the interests of tenants and the public are cared for. Tenants before taking occupancy must deposit three shillings as security against damage, to be returned to them if they leave the premises without having done any damage or lost any keys. They must keep all windows clean and broken windows must be at once reinstated. Flower pots are not to be exposed on any outside ledges without being protected against falling. This is obviously to save broken heads in the area beneath. Tenants may dry clothes on the roof, but are not allowed to hang them out of windows or upon landings. No carpets, mats, etc., may be beaten after 10 in the morning, except on Sunday and in a prescribed place. Liquids or anything likely to cause an obstruction are forbidden to be thrown down the dust shafts, or

any refuse in the courtyards. Drunken or disorderly tenants will be subject to immediate expulsion. Tenants are required to report to the superintendent immediately any births, deaths or infectious diseases occurring in their several tenements, under penalty of receiving notice to quit.

In the general laws relating to sanitation in London there are salutary provisions. The medical officer of health has among his duties the reporting of dwellings that he may deem unfit for human habitation. In any contract for letting a house there must be a condition that it is in fit condition for occupancy. The medical inspector may at all reasonable times of the day, on giving twenty-four hours' notice in writing to the occupier, enter any dwelling house, premises or building which the local authority is authorized to purchase compulsorily. No member of any local authority, county council or committee may vote on any question affecting a building in which he has a pecuniary interest under penalty of a fine not to exceed \$250.

OBSERVATIONS.

California will not hear tell of being called a back number as a gold field. Her mining authorities claim that she still leads the world in the yield of that metal.

Judge J. A. Magoon has the BULLETIN'S hearty congratulations upon his elevation from Bar to Bench. Few lawyers have been more active and industrious than he, yet he found time on occasions to evince a public spirited interest in the affairs of the nation.

There is food for thought in an article reprinted elsewhere from the San Francisco Bulletin, on the subject of the development of races. They are too rash who would advocate the stopping of effort for civilizing barbarous peoples, but the mistake has always been that too much has been expected of races that have barely turned their eyes to the light of civilization.

According to an account of social conditions in Cuba, reprinted from an exchange, the small former there has a far from luxurious existence. We must hope for better things with regard to the new agricultural homesteads of Hawaii.

A step toward religious liberty has been taken in Hungary, the lower House of the Diet adopting bills to recognize the Jewish religion and establish freedom of worship.

From different directions word comes that the "new woman" is becoming discredited and must rapidly go out of date. The "old woman" will continue to be the better half of humanity.

It is time that interest began to warm up again in boating matters. The public has had a long wait for a race between those twin practice boats imported from Australia.

Building accidents seem to be having a race with runaways.

NEWS BUDGET FROM HILO.

ARRIVAL OF U. S. S. BENNINGTON WITH MINISTER WILLIS.

Reception and Banquet Tendered to the Distinguished Visitor--Other Hilo Items.

The Bennington came anchor in Hilo harbor last Friday at 2:30 p. m., having on board Minister Willis and wife. They left on Monday and will spend several days at the Volcano.

A meeting of the American citizens was called last Saturday by A. B. Loebenstein to discuss the feasibility of giving some sort of an entertainment to the U. S. Minister. After discussing the matter a reception and literary entertainment, to be followed by a banquet, was decided on as the proper thing. A committee was appointed to call on the Minister (who will stay aboard the Bennington) and ascertain his views in regard to the matter. He expressed much pleasure at the attention shown him and stipulated that the affair would not be too formal. The citizens then got together, and A. B. Loebenstein was called to the chair and empowered to appoint the several committees.

This selection as below showed good judgment:

Committee on Arrangements and Banquet--E. E. Richards, A. W. Hobson, Dr. R. W. Williams, Mrs. J. R. Wilson and Mrs. A. B. Loebenstein.

Committee on Literary Program--Col. Little, Mr. Caldwell and E. C. Richardson.

Reception Committee--F. L. Winter, Dr. Hutchins, E. E. Richards and two ladies not yet selected.

Committee on Invitations--Mr. Jones, Mr. Campbell and Col. Little.

After some discussion a motion was passed that it was the sense of the meeting that while the entertainment was to be strictly American, and that the several committees should be Americans, that the prominent and influential citizens of Hilo and vicinity should be invited to attend, and the committee on invitations was instructed to act accordingly.

The committees are all working hard, as they intend to show the U. S. Representative to Hawaii that they know how to enter-

BULLETIN BICYCLE CONTEST.

The subjoined ballot, renewed in every issue, will be received at the BULLETIN business office, 609 King street, until 12 o'clock noon on Wednesday, November 27, 1895. Each No. of ballot will only be acceptable up to the time noted on it, and ballots will be counted and the results announced immediately thereafter. More than one vote for one bicyclist or one bicycle on a single ballot will render it void.

THE PRIZE.

The "Most Popular Bicyclist" according to the ballots cast will be awarded the prize of the "Best Bicycle" sold in Honolulu according to the same vote. The following named gentlemen have kindly consented to act as tellers and judges of the contest:

C. M. WHITE,
J. T. STACKER,
E. A. WILLIAMS.

Bulletin Bicycle Ballot.

No. 12.

Good for Two Days Only.

MOST POPULAR BICYCLIST.

BEST BICYCLE.

Fill in blanks with your choice of bicyclist and bicycle and deposit this ballot at the BULLETIN business office by 12 o'clock noon, Thursday, November 7, 1895.

Timely Topics

The able address by Mrs. Sturtevant-Peet, president of the California Woman's Christian Temperance Union, on the occasion of the annual convention of that body in San Francisco, contained a passage which takes strong ground on the benefits of the bicycle. In speaking of physical culture and the relation of the clothes to the subject, she said:

"All know the value of a strong unhindered body. For this reason the banishment of the corset and restricting bands is a foregone conclusion."

Dress reform has pressed its claims for forty years, with little progress till the bicycle, that graceful, silent steed of motion, dashes through and bursts open the door of prejudice. This mystic wheel that we meet on every road and street is the mute but telling advocate of dress reform.

It has its virtues as well as its charms. It invites, yea, demands, simplicity in dress. It encourages physical exercise and utterly refuses to carry a drunken rider. Unlike the horse, it balks when touched by the hand of inebriety. It inconveniences and discourages the use of cigars and cigarettes to the number of 65,000,000 a year. In short, the wheel is a reformer, and, though, it came not through the virtue of moral conception, we should welcome its presence as we do the advent of every new invention and corporate edict bearing the balm of sobriety, with the promise of stronger and better men and women."

This is a straightforward expression from an able woman who led the California forces of one of the greatest National organizations ever instituted for the uplifting of the race. The dignity and earnestness which characterize her opinion cast into the shades the hallow objections which some physicians have made to the bicycle. Mrs. Peet gives us to understand that in the sole aspect of requiring women to dress sensibly this simple instrument of locomotion has accomplished more at a dash than the preachers on sensible dress for women have been able to bring about in nearly half a century. With so eminent an indorsement as this, even the most timid woman who is not held in what amounts to physical restraint by father, husband or brother from obeying an instinctive impulse to dress rationally and enjoy life and health on a bicycle, may at least console herself with the reflection that her impulse was right and lament that she was born a few years too soon.

In addition to the above Mrs. Peet might have mentioned the saving in labor attained by the patent sprocket attached to the Tribune wheel, which amounts to over 15 per cent, no small desideratum when ladies are concerned.

The Tribune is the wheel par excellence for ladies' use, it has the newest patents and improvements and can be run with 15 per cent less work than any other wheel in existence.

DRY GOODS

In Honolulu there is always something that demands the attention of the fair sex. More especially is this true when good bargains are offered. In catering to the wants of the Honolulu ladies, the merchants must buy judiciously and select only the most artistic designs. Especially is this true of white dress goods. I received by the AUSTRALIA a new line of these goods that are very pretty. They must be seen, however, to be appreciated. I also received a fine line of Ladies' Shirt Waists and Corsets. Now that the Cholera is over and life, socially, has resumed its normal condition, the dry goods business must increase materially in the next month. Anticipating this demand I have laid in this fine stock of goods and they are now ready for your inspection, and can be purchased at a reasonable figure.
